ABOUT US

Open all year, Pools & Spas Service, Inc. is here to answer your questions, or help you with problems that occur with your pool.

For over 18 years, we have been the #1 Pool Service, Maintenance, and Renovation Company in Monmouth, Ocean, Mercer and Middlesex Counties. Unlike

many other companies that build pools or have a retail store, we focus 100% of our attention on service, maintenance, and renovations. What does that mean for you? Our laser focus means ultimate expertise and service second to none when it comes to the maintenance, service, or renovations of your pool. With no conflict of interest, we service EVERY MAJOR MANUFACTURER pool product, and we send out professional and fully trained experts to address any need you have.

From a broken pump, to a leaking liner, to a complex renovation, one call to us will solve your issue affordably and with guaranteed results. If you don't believe us, then check out our stellar reputation as one of the few ACCREDITED BBB A+ Rated Pool companies in the State of New Jersey. Plus, we have 1000's of happy clients who can attest to our reputation of quality and excellence.

732-761-0061
WWW.POOLSANDSPASNJ.COM

When Quality, Reliability and Value Matter... Make Sure You Call Pools & Spas Service, Inc.

When it comes to pool ownership in New Jersey, we all know that every day counts. After all, we really only get a 4-6 month window to relax and lounge by the pool with family and friends. That's why thousands of pool owners in your neighborhood choose to rely on Pools & Spas Service, Inc. to create a relaxing and worry free pool experience by hiring us for service, maintenance, and renovation.

Unlike most pool service companies who are little more than a man and a truck, we pride ourselves in being one of the ONLY pool service, maintenance, and renovation companies to remain open all year round for support, service and off season upgrades. When you call our company, you will speak to a highly qualified customer service expert who will quickly set you up for an in person appointment to discuss ANY pool need or question you might have. Every member of our service staff is trained and certified and insured to make sure that you get immediate answers and dependable results.

Whether you are looking for a simple pool opening, need a pool equipment service, inground pool renovations, or wish to learn about our 100% hassle free maintenance programs, do yourself a favor and call the Local Pool & Spa Experts at Pools & Spas Service, Inc. We guarantee fast response and hassle free solutions that will make this pool season the MOST ENJOYABLE EVER.

We hope to hear from you soon,

Chuck & Mario

What Plan Is Right For You?

At Pools & Spas Service, Inc. we are one of the only pool companies in the state that has a full service repair, maintenance, and complex renovation department without installing pools. This gives us a unique advantage when it comes to servicing our clients and their pools. We are proud to offer a myriad of programs, both seasonal and annual that will keep your pool looking and running great. Below is a chart to help you select the perfect annual, or seasonal service contract that meets both your budget and your needs.

ALGAE BUSTER SERVICE CONTRACT

This program is designed to kill algae growth. This allows your pool to be opened with clean, clear water and saves on chemical usage at Spring startup. Warning: Your pool chemicals are weak, therefore allowing algae growth to occur. Take advantage of this service and have no worries about opening to a dark green, or black pool. Save on chemical startup costs in the Spring!

(See page 52 for details)

WEEKLY POOL SERVICE CONTRACT

This program is for customers who would like their pool maintained on a weekly basis. This would include manual vacuuming, water testing, filter back washing, cleaning skimmer baskets and adding chemicals as needed (customer's or purchased).

(See page 53 for details)

HOT TUB & SPA SERVICE CONTRACT

Do you own a hot tub and want to maximize your relaxation? Do what hundreds of our customers do and let us keep it safe, clean and running right. Not only are we authorized service professionals for most major brands, but our staff can fix other problems around your spa that might arise. Let our knowledgeable and factory trained staff help you service your spa, no matter what major brand.

(See page 54 for details)

GOLD SERVICE-RITE CONTRACT

- Pool opening
- Up to 3 initial cleanings
- 14 weeks of manual vacuuming
- Water testing
- Backwashing filter
- Cleaning out skimmers & pump baskets
- Adding chemicals (all chemicals included)
- Pool closing
- Cleaning of D.E. or cartridge filters
- Priority service on all repairs with no trip charge and discounted parts and labor

(See page 8 or details)

PLATINUM SERVICE-RITE CONTRACT

This is a 12 month maintenance plan that includes all GOLD services plus:

- 4 weeks of additional manual vacuuming
- Wintershield services
- Algae Buster services
- Heater maintenance

(See page 6 for details)

SERVICE-RITE CONTRACT

CALL 732-761-0061

Start early. Swim late.

Big performance. Small footprint.

New Jersey pool owners are quick to realize that the weather is such that their pools are slow to heat up and quick to cool down to almost frigid temperatures. With warm, comfortable water falling between 82-88 degrees, pools in New Jersey experience less than 20 days of warm water each year. With all the money you have invested in your pool, does it really make sense to rely just on the weather? Or does it make sense to plan for some reliable heat source for your pool so that you can use the pool any day you want, any time, 5 months a year?!

At Pools & Spas Services, Inc. we'll be glad to install an affordable, fuel efficient pool heater in the form of the Pentair MasterTemp® High Performance pool heater. With a microprocessor controlled thermostat and wind resistant design, the Pentair MasterTemp® High Performance pool heater will keep you warm no matter what the weather.

Pools & Spas Service, Inc. is proud to sell and install Pentair pool heaters. From the moment it is installed, you will enjoy years of comfort and warmth with a pool that is just the temperature you like. Call now and start swimming earlier this Spring.

Efficiency, Fast Heating And Simplicity In A Sleek, Compact Package.

When you want the soothing experience of warm water, the MasterTemp® High Performance Heater brings you the design features that deliver lower operating costs, easy operation and a long, dependable service life.

MasterTemp heaters are well-known for best-in-class energy efficiency and low emissions, even while heating your pool quickly. They feature an exceptionally compact design for such a high-performance heater, so they fit on smaller, less-intrusive equipment pads. Controls are intuitive and easy to use. MasterTemp heaters are also designed for super-quiet operation to help keep your poolside experience tranquil.

Economical and fast: Premix combustion technology for best-in-class efficiency and fast warm-ups; no long waits to enjoy your pool.

Enhanced design: Sleek, updated looks with easy-to-use controls.

Built to last: Tough, rustproof composite exterior weathers the elements.

Certified for low NOx emissions

MasterTemp®

**\$750
VALUE**

(excludes gas line to heater location) Exclusions Apply. As low as \$112.81 per month. Special financing for 36 months at 0% APR. Subject to credit approval. Call for full details.

POOL HEATING

CALL 732-761-0061

An eye-opening experience.

No More Irritated Eyes, Bleached Clothing, or Chlorine Tablets to Deal With!

A New Standard in Chlorine Generator Technology, IntelliChlor® takes electrolytic chlorine generation to a higher level of convenience, reliability and safety. But to understand why the IntelliChlor® generator is better, it helps to first understand how it works. Table salt (sodium chloride) is added to the pool water.

Less than a teaspoon of salt per gallon of pool water is all that's required. As the dissolved salt flows through the generator cell, it is electrolytically converted to pure chlorine, which is then distributed throughout the pool, sanitizing the water, keeping it fresh, clear and safe.

Unlike conventional chlorine additives that must be constantly replenished, the salt is recycled continuously, day after day, to further reduce pool maintenance requirements. The generator even keeps itself clean with an automatic reverse cycling feature that prevents scale build-up for longer cell life.

- Add salt right in your pool—then IntelliChlor® safely, effectively and automatically uses it to clean!
- Same sanitation performance as manual chlorine addition without the drawbacks.
- No need to buy, transport and store expensive chlorine compounds.
- No more odor, stinging eyes, irritated skin and bleached-out swimsuits.

Why make this the year to convert your old chlorine pool to an amazing Salt Water Pool?

There are so many reasons to call Pools & Spas Service, Inc. today, but here are a few highlights.

Saltwater is Healthy & Safe

- Salt is all natural and is much cheaper than chlorine tabs. In fact, salt provides effective sanitization performance without any of the drawbacks of expensive chlorine compounds.
- Less chlorine needs to be produced at chemical processing plants for use in swimming pools and spas. This reduces emissions and energy use from production, packaging and transportation.
- You no longer need to buy, transport, store or handle chlorine products. This reduces the chance of spills or accidental exposure and eliminates cost.
- Because the chlorine is pure, the odor, stinging eyes and irritated skin caused by additives in packaged chlorine are eliminated.
- Engineered to stand up to the toughest pool conditions and provide years of dependable service.
- Produces water that feels soft and silky.

The amazing IntelliTouch® series.

Control Your Whole Pool From Your Phone, iPad® or Remote

IntelliTouch® Automation offers superior control systems from small to the most ambitious pool and spa designs including water features and spectacular lighting effects. IntelliTouch® Automation Systems offer innovative technology and a wide range of wireless and wired control panels that are easy to program with simple menus to enable pool owners to create and change programs without complication. Users can choose the iPhone®, iPad®, iPod touch® or the MobileTouch® wireless (900MHz) control panel to complete their pool and spa automation system.

So you want the coolest pool in town? One that never requires you to lift a finger to clean, turn on, chlorinate or vacuum? Call Pools & Spas Service, Inc. and we'll show you the coolest pool toy ever. The brand new iPod® and iPad® controllable IntelliTouch® Automation. It will revolutionize the way you maintain your pool forever. IntelliTouch® offers advanced control technology to suit individual needs including:

- ScreenLogic® User Interfaces - Enables IntelliTouch users to control their pool and spa features using wireless color touch screen devices. iPhone, iPad and iPod touch options are also available. ScreenLogic® systems now have advanced features such as remote monitoring and control over the internet and e-mail alerts for specific events. Other wired interface options are also available to control pool and spa features via a desktop or laptop PC from within the home or on the road.

- Salt Chlorine Feature - Enables IntelliTouch® users to control and monitor popular Salt Chlorine Generators including Pentair® Water Pool and Spa's IntelliChlor®, Goldline®, AutoPilot®, and AutoClear® from the IntelliTouch® Indoor Control Panel or MobileTouch® wireless control panel. Users do not have to adjust the salt chlorine generator at the equipment pad.
- Support for IntelliFlo® Pumps - IntelliFlo® constantly monitors water flow and electrical current, making sure that the filtration system is operating at peak efficiency. And that means energy savings never before possible ... up to 90% over conventional pumps.
- Advanced Color Lighting - Enables users to experience a world of lighting animation when teamed-up with IntelliBrite® color lights. One of the most dramatic innovations is the Swimming Colors feature in which colors appear to swim through the water, pouring into one another.

So clean. So clear. So easy.

Now available with ClearPro Technology[®] for 60% Cleaner Water

Sand Dollar[®] Top Mount Filters are the perfect high performance sand filters. They're incredibly simple to operate and maintain, and it's built with long-term reliability in mind. Plus, it's highly efficient design provides all the clean, crystal clear water your pool requires, year after year.

Sand Dollar[®] Top Mount Filters with ClearPro Technology[®], remove particles up to five times smaller than traditional sand filters well below what your eye can detect for water that truly sparkles with clarity. The ClearPro[®] secret is a proprietary, porous tube that water must pass through before re-entering the pool. It creates a final barrier to the very smallest particles that sand cannot trap, including the finest dust particles, algae and pollens.

High Efficiency Filtration Systems for Sparkling Clear Water

By removing impurities such as dirt, leaves, grass, hair, body oils, sunscreen, and even many bacteria from the water, our high efficiency filters keep your pool water clean, clear and inviting.

Simple, Effective, Low Maintenance Filters

Sand filters are one of the most popular ways to filter water. For good reason. They are simple, effective, and require very little attention. Pool water is routed through a sand-filled pressure vessel. Over time, dirt accumulates in the spaces between the sand particles causing the pressure in the vessel to rise as water finds it harder to pass through. This signals you to backwash the filter. Simply reverse the water flow and knock out the dirt.

Revolutionary Technology Re-Defines Sand Filter Performance

Traditional sand filters can only remove particles in the 50-100 micron range, but Sand Dollar[®] Top Mount Filter with ClearPro Technology[®] with patented ClearPro Technology[®] removes particles up to five times smaller to achieve 60% cleaner water than other sand filters. At the same time, Sand Dollar[®] Top Mount Filter with ClearPro Technology[®] is incredibly simple to operate and maintain. And, it's built with long-term reliability in mind. Stunning performance. Supreme simplicity. Superior value.

The Sand Dollar[®] Top Mount Filter features a clamp style, six-position multi-port valve. Special lateral design provides superior flow characteristics and long filter cycles for economical operation.

HUGE TIME SAVINGS

- 60% Cleaner Water
- Increased Longevity
- Super-Simple Maintenance

An upgrade in savings & safety.

Reliable, Durable Pumps for Inground Pools

The IntelliFlo® SVRS variable speed pump is the revolutionary way to reduce energy costs and provide the safest possible pool environment. This “intelligent” pump can cut the pool portion of utility bills up to 90%, saving you hundreds of dollars per year and thousands over its life.

On the safety front, this pump features a built-in Safety Vacuum Release System (SVRS) that senses drain blockage and automatically shuts the pump off to provide an important layer of protection against entrapment.

The Costly Drawbacks of Traditional Pumps

Traditional pool pumps have offered a limited number of single-speed and two-speed designs. Their motor speeds are set and unchangeable. These set speeds are almost always higher than required, thereby overpowering the jobs they are assigned to do, which wastes energy. What’s more, these pumps rely on induction motors that are notorious energy hogs. In fact, even so-called “energy efficient” pumps can cost more to operate than almost all other home appliances combined. Pump-related electric costs typically total hundreds of dollars per year—and often more than \$1,000 in areas with the highest energy rates. With all this in mind, continue reading to learn about a revolutionary change in pump technology and discover the most valuable and responsible addition you can make to your pool.

Standard pool pumps can consume as much energy as your air conditioner, often costing residential pool owners more than \$500 to \$750 per season! IntelliFlo® pumps can typically cut energy use up to 90%, generally saving \$400 to \$650 in utility costs per season.

IntelliFlo® SVRS Variable Speed Pumps

If you have an older, energy-hog pump, installing a new IntelliFlo® will virtually pay for itself in the first year of savings. It is the most economical pool pump around and will save you \$100’s and provide a cleaner pool to boot.

QUIET OPERATION

The quietest pump on the planet: Thanks to its permanent magnet motor, totally enclosed fan cooled (TEFC) design, and the fact that it runs at a lower speed.

SAFETY

This pump conforms to the Virginia Graeme Baker safety act which means it will shut down if clogged or blocked, preventing a major hazard to swimmers.

LONGEVITY

Longer life further increases return on your investment: IntelliFlo®’s permanent magnet motor produces far less heat and vibration than traditional induction motors.

BOOST-RITE® BOOSTER PUMP

- Powerful 5-stage impeller design cuts operating costs by over 25%*
- 1” fittings are 75% larger in area, for better flow and greater efficiency
- Totally Enclosed Fan Cooled (TEFC) motor design allows the pump to run cooler and quieter
- Condensed size is 1/3 smaller than competing pumps, taking up less space on the equipment pad

Engineered For Superior All-Around Performance

The Boost-Rite pump delivers more of what you want—lower energy consumption, top performance, easier installation, quieter operation, and greater durability.

- Lower energy consumption: Advanced 5-stage impeller design cuts electricity use by over 25%*, offering you substantial savings.

- Quieter operation: For a more relaxing poolside experience.
- Greater durability: Totally Enclosed Fan Cooled (TEFC) motor runs cooler for longer pump life.
- More power: The Boost-Rite pump delivers greater water pressure for more powerful cleaning...at less cost.
- UL and cUL Listed for safety.

Lasting Beauty and Durability

The quickest way to transform your pool is to upgrade or install a new liner. Since we carry only the top brands, all with a minimum of 25 year factory warranties, we can get you swimming in style for less. Plus, we bring the samples to you so that you get the perfect style.

Standard pool liners present visible lines on the pool floor at the seams which ultimately distract from the beauty of the pool. Our innovative UltraSeam technology elevates our liners to an entirely new category. This exclusive process makes floor seams stronger and virtually invisible, so there's nothing that gets in the way of the picture perfect beauty of your pool!

A designer in-ground pool liner can be the spectacular centerpiece of your backyard environment, transforming your pool into a work of art. LOOP-LOC® Luxury Liners are the first in-ground pool liners good enough and beautiful enough to come from the legendary LOOP-LOC®, the company known for the ultimate safety swimming pool cover.

Whether you would like to update the look of your current in-ground pool, or enhance the beauty of a new pool, LOOP-LOC® Luxury Liners are the perfect choice.

Manufactured using only the highest quality virgin vinyl material that resists puncturing, algae, mold, mildew and bacteria.

Most patterns are available in durable 20 mil and 28 mil. State-of-the-art computer technology and manufacturing equipment ensure a perfect fit for any pool – from simple rectangles to the most complex freeforms.

At LOOP-LOC®, our quality products are built to last. Every LOOP-LOC® safety pool cover, luxury in-ground pool liner is backed by our exclusive warranty.

Neutralize 99.9% of Bacteria with Up to 50% Less Chlorine

Give yourself the peace of mind of cleaner pool water.

Pool water can be a breeding ground for several kinds of harmful bacteria and pathogens that can cause Recreation Water Illnesses (RWIs). That's why Pentair has harnessed the power of UV light to neutralize bacteria and prevent its reproduction. The BioShield® UV Sterilizer provides instant protection as it "zaps" those harmful waterborne pathogens, providing cleaner, safer pool water for friends and family..

POOL STERILIZER

Kills Harmful Bacteria – Reduces Chlorine Smell

Uses powerful and safe UV light to neutralize 99.9% of bacteria. Here are some of the unwanted guests you'll kick out of your pool:

Cryptosporidium is a leading cause of waterborne illness and is highly resistant to chlorine disinfection.

Giardia is a microscopic parasite that causes severe intestinal discomfort.

E.coli bacteria can cause urinary tract infections, respiratory illness and other health issues.

EFFECTIVE

GOOD Super Dense Mesh

Protect Your Family With The Only Mesh Pool Cover That Passed The Elephant™ Test: “The Elephant™ Cover.”

LOOP-LOC® puts an unbreakable “lock” on your pool to protect your family. Only LOOP-LOC is available with the patented CABLE-LOC™ and GAPGUARD® Child Safety Intrusion Barriers. They close the dangerous gaps created where raised obstructions meet the cover’s edge, so there’s no way a child or pet can slip through.

LOOP-LOC’s exclusive Computer Aided Design ensures a perfect, custom fit for any shape or size pool: from a simple square to the most complex installation, LOOP-LOC can manufacture a custom cover with the perfect fit for any pool or spa.

LOOP-LOC always stays tight, clean and beautiful on your pool – unlike a saggy, unsightly waterbag cover that becomes a dangerous, slippery swamp after just a few

rains. LOOP-LOC’s super dense mesh allows rain to drain through. The cover stays dry and beautiful in any weather!

By following LOOP-LOC’s simple care and maintenance instructions for your mesh or solid cover, you’ll be able to open your pool with minimal cleaning and keep your cover in the best shape, year after year!

Unlike solid waterbag covers, a LOOP-LOC requires no pumping, scrubbing or heavy maintenance. Plus, it’s easy to install and remove with LOOP-LOC’s unique anchoring system.

CABLE-LOC™

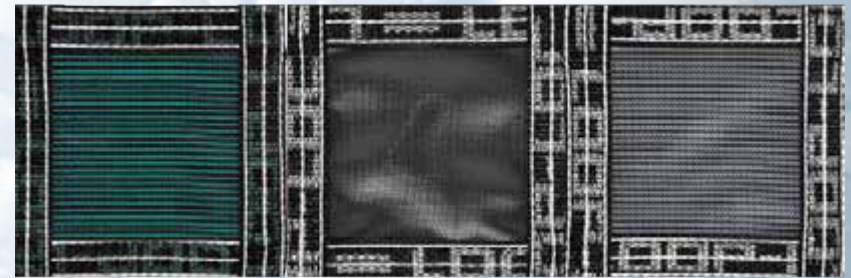

We’ve Raised the Bar on Raised Wall Installation.

Installing LOOP-LOC® safety covers on pools with raised walls is now a whole lot easier for you . . . and a more beautiful experience for your customers. Our innovative new CABLE-LOC treatment features flexible anchor positioning for much faster installation, exceptional quality materials, and a sleek new look homeowners will love!

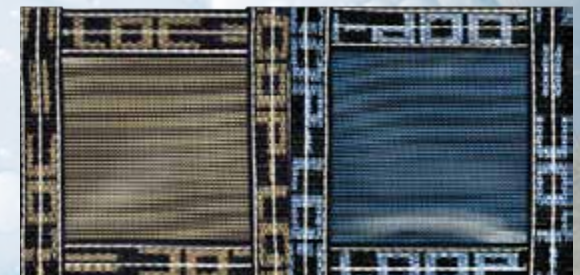

- 33% FEWER ANCHORS
- FASTER & EASIER TO INSTALL
- ELEGANT & STURDY DESIGN

1. New smaller-profile SAFEDGE® Safety Barrier is segmented to better adapt to walls
2. Aircraft-quality stainless steel cable has 5,000 lb. break strength
3. Maximum 18" anchor spacing

Looks Like Pebble, But is Smooth Like Plaster

Do you want the look of pebble with the feel of plaster? The unique aspect of our luxury polished pebble pool surface is that it almost looks like granite or natural stone underwater, yet offers massive durability. This finish also has a smooth feel like plaster, with the amazing look and durability of pebble finish.

The colors are wide ranging and each finish is infused with eco-friendly, recycled glass for eye appeal and luster that can't be matched. A great choice if you want a pool finish that will last since it can be "re-polished" down the road.

- 100 percent naturally rounded quartz
- Luxuriously smooth and resilient texture
- The lowest life-cycle cost finish
- **Never have to re-plaster!** Restore with by re-polishing
- Applied by a certified Wet Edge installer

Discover the New Age of Pool Surface Pebble Technology

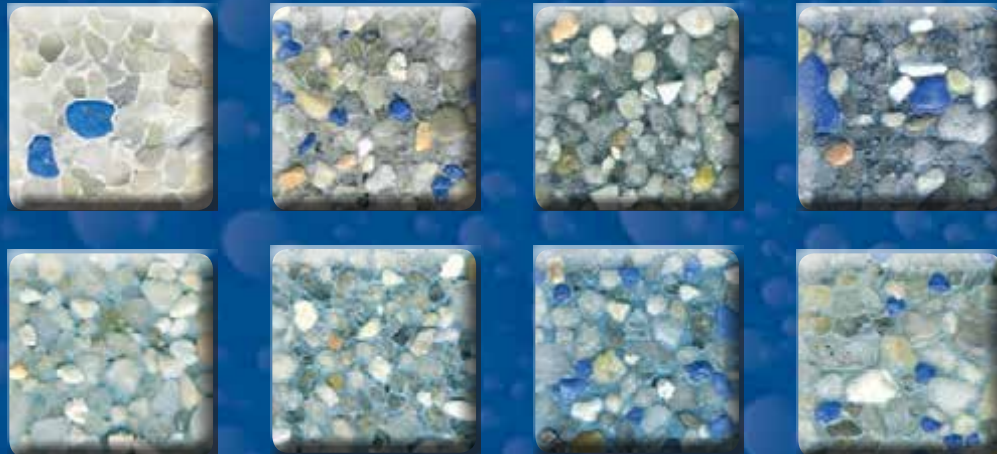

Our premium pebble product is the perfect combination of aggregate or “stone” finish that highlights a smoother feel than other competing stone products. The major benefit of our pebble finish is that it is the longest lasting pebble finish on the market at a mid-level price point. It also requires less maintenance than smoother finishes which helps mitigate maintenance and scaling of your pool surface.

These finishes are both visually stunning and come in a wide variety of colors. Whether you choose a dark or light color scheme, our pebble pool finishes will produce a gorgeous pool that will stand the test of time.

KEY BENEFITS

- Small / Naturally Rounded Pebbles
- Timeless beauty
- Long lasting and durable
- Easiest pool finish to maintain
- Applied by a certified Wet Edge installer

Limited Time – Upgrade Exclusives

POOL FINISHES

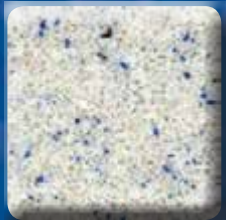

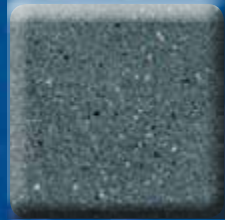

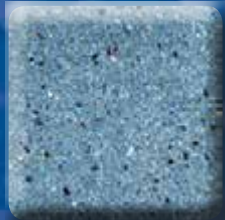

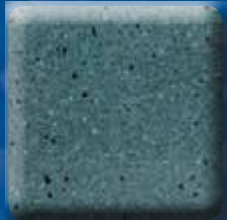

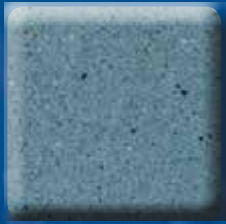

At Pools & Spas Service, Inc., we take pride in the fact that our pool finishes are constructed using the latest advancements in cement technology which result in stronger, more durable and more luxurious feeling surfaces. No matter what finish you choose, it will be formulated with concentrated German Engineered polymers that set it apart from other pool surface options. The end result is superior bonding, longer lasting and more luxurious pool finish. PLUS – Installed by certified master installers so every installation will be completed to the highest standard.

Value and Quality Lies In Quartz

Our Quartz finish is an exposed aggregate finish which is a step up from a fortified quartz basic plaster pool finish. Every Quartz finish features 100% natural quartz and is installed to a fine and smooth in texture. The end result is sparkling and shiny water. A great price point with fantastic eye appeal.

For the ultimate nighttime experience.

A Rainbow of Breathtaking Underwater Lighting Effects

Our underwater color-changing lighting systems can transform your pool or spa into a luminous nighttime wonder. Choose a constantly changing underwater light show. Or, pause and bathe your pool or spa in a single captivating color.

Our broad range of pool, spa, and landscape lighting system options can turn pleasant poolside evenings into magical nights in your backyard wonderland. Pentair® lighting systems have been the brand of choice worldwide for nearly 50 years. That's because we deliver the innovations, quality, reliability, energy-efficiency, and value pool builders and pool owners demand.

Choose from dazzling color-changing lights as well as standard incandescent and halogen lighting for underwater effects, and landscape. Plus we offer niches and accessories to complete your pool lighting package.

Magicstream® Laminars

LED COLORED WATER ARCS

MagicStream® Laminars create totally clear, uniform arcs of moving water that originate from either your pool deck or surrounding landscape. At night, these translucent streams are brilliantly colored with an LED light source. The result is a water effect that adds an elegant bit of entertainment to your poolscape.

Intellibrite® 5G

UNDERWATER COLOR-CHANGING LED POOL AND SPA LIGHTS

IntelliBrite® 5g automated color-changing pool and spa lights feature LED technology; the wave of the future in energy efficiency, lifetime value, quality of light, and controllability. With IntelliBrite® 5g, combinations of individual colored LEDs are mixed and matched to achieve a vibrant spectrum of colors. These combinations are power sequenced to illuminate and cycle through colors at varying speeds, and in different sequences of color. Combined with a custom reflector and unique lens design, the IntelliBrite® 5g offers super efficiency while being the brightest yet most energy efficient underwater LED light available.

Intellibrite® Controller

PROVIDES FAST, EASY ACCESS TO 12 COLOR MODES

The IntelliBrite® Controller works with IntelliBrite® Color Pool & Spa LED lights as well as IntelliBrite® Landscape Lights. It can control and synchronize both sets of lights to create dazzling shows.

- Waterproof Outdoor LED Color Light Controller
- Quick access to all colors and shows
- Convenient hold and recall function
- Fits in 22.5 cu.in. single gang box or larger

CLOSING

ALGAE BUSTER SERVICE CONTRACT

Let the Local Pool Pros Handle Your Algae Maintenance!

This program is designed to kill algae growth. This allows your pool to be opened with cleaner, clearer water and saves on chemical usage at Spring startup. Warning: Your pool chemicals are weak, therefore allowing algae growth to occur. Take advantage of this service and have no worries about opening to a dark green or black pool. Save on chemical startup costs in the Spring!

Open Clean...Not Green

To keep your pool cleaner and algae free, we recommend using the algae buster service once a month in the beginning of March, April and May for best results.

Forget Harsh Chemicals & the Work!

One call to Pools & Spas Service, Inc. and your pool will be CLEAN...NOT GREEN for Spring.

Warm Winter Weather encourages much more algae growth

Pools with Mesh Covers are extremely susceptible to algae growth

WARRANTIES

Important Consumer News!

Drastic changes are happening in the pool warranty business.

WARRANTY UPDATE

One of the most important pieces of information you should take away from this year's magazine is that the 4 biggest pool product companies are **DRASTICALLY CHANGING THEIR WARRANTY POLICIES** and will now **REQUIRE AN AUTHORIZED and CERTIFIED COMPANY** to install your new pump, heater, filter, cover or other pool components.

How might this drastic change effect you? In the past, Pentair offered repairs or replacements for a full year or more, regardless of who performed the installation. With pool owner safety and proper product performance in mind, they will now require the following criteria be met by the purchaser: To register for the extended warranty terms, a pool owner must submit a sales receipt along with a qualified installer's invoice.

WHAT COMPANIES HAVE CHANGED?

Pentair Aquatic Systems recently revised its longstanding program. Warranties on a number of Pentair's products — including pumps, filters and heaters — will be limited to 60 days unless the equipment is installed

by a recognized certified pool professional. In that case, it will be protected for one to five years, depending on the product.

Zodiac Pool Systems - (manufacturer of Jandy products and Polaris pool cleaner products) instituted a similar change earlier this year. So far, so good, said Troy Franzen, the Vista, Calif.-based manufacturer's managing director.

Likewise, Elizabeth, N.J.-based Hayward Pool Products is extending its standard one-year warranty to two or three years on select products when installed by a recognized certified pool professional.

Loop Loc, located in Hauppauge NY is one of the oldest pool cover manufacturers in the industry who has now changed their warranty. Any pool cover purchased from the internet and not installed by a recognized pool professional will be excluded from all warranties.

So, why not call Pools & Spas Service, Inc. if you are going to install any of the products manufactured by the companies mentioned above?

Manufacturers in other industries have experimented with similar warranty models. Makers of flat-screen televisions, for example, discovered early on that consumers weren't properly mounting their new high-definition monitors to the walls, so they extended warranties by a year or so for products that are affixed professionally.

MAKE SURE BEFORE YOU BUY OR INSTALL

If you do need any new pool components this season: Filter, pump, heater, cover, etc, you should think twice about buying it online to save a few dollars. If you're intending to buy from a local pool company, you should be 100% sure that they are, in fact, licensed and certified to install the products you buy. This is the only way to guarantee your warranty will be valid.

So How Do You Make The Right Choice?

Before you buy or hire anyone to repair or upgrade your pool, most consumer advocate companies suggest you ask the following questions:

1. Before you buy, make sure you do your due diligence to ensure that the company or contractor performing the work is licensed, bonded and fully insured in New Jersey. Also, they must be certified and recognized by the manufacturer as a pool professional in order for any warranty to be valid. Make sure they have a valid N.J. CONTRACTOR LICENSE NUMBER to ensure your product warranty will be enforced. If you use the wrong contractor, your warranty could be void.
2. Check for BBB ratings and third party reviews. Customer reviews and accreditations are the only way to sort out the shady pool installation services from the genuine article.
3. Find out how long they've been in business. While some emerging companies may be terrific, generally speaking, a company with a solid foundation of experience is always a smart choice to make.

Pools & Spas Service, Inc. is one of the few full time, certified companies who can install products and keep them in warranty from the 4 major pool product manufacturers. PLEASE REMEMBER: Doing it yourself or calling an uncertified pool company will cost you BIG \$\$\$ down the road.

As a business with over 18 years of experience, positive reviews, certified pool experts, low pricing, and recommendations galore, you owe it to yourself to call us and keep your warranty in tact.
